Independent Auditors' Report

The Board of Directors
The Christian Broadcasting Network, Inc.:

We have audited the accompanying combined statements of financial position of The Christian Broadcasting Network, Inc. and affiliated organizations (the Ministry) as of March 31, 2011 and 2010, and the related combined statements of activities and cash flows for the years then ended. These combined financial statements are the responsibility of the Ministry's management. Our responsibility is to express an opinion on these combined financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Ministry's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall combined financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of The Christian Broadcasting Network, Inc. and affiliated organizations as of March 31, 2011 and 2010, and the combined changes in their net assets and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

(1) The Organization and Summary of Significant Accounting Policies

(a) Organization

The mission of The Christian Broadcasting Network, Inc. and its affiliated organizations (CBN or the Ministry) is to preach the gospel of Jesus Christ to all the world as a witness unto all nations (see Matthew 24:14). In achieving this mission, CBN's chief method is the strategic use of mass communication, especially television (both domestic and international), the internet, and the distribution of teaching materials in the form of CDs, DVDs, films, and literature. CBN's purpose is to train the young and old on the principles of the Kingdom of God, and their application to everyday life. The Ministry also provides spiritual counseling, financial, medical and humanitarian aid to the needy 365 days a year, worldwide.

(b) Basis of Presentation

The combined financial statements include The Christian Broadcasting Network, Inc. and its subsidiaries and affiliated organizations under common control. All significant intercompany transactions and accounts have been eliminated. The combined financial statements of the Ministry have been prepared on the accrual basis of accounting.

These combined financial statements have been prepared to focus on the Ministry as a whole and to present balances and transactions according to the existence or absence of donor-imposed restrictions. Net assets and revenues, gains, and losses, are classified based on the existence or absence of donor-imposed restrictions. The Ministry's net assets are segregated into three net asset groups:

Unrestricted net assets – Net assets not subject to donor-imposed restrictions.

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that will be met by actions of the Ministry and/or the passage of time.

Permanently restricted net assets – Net assets subject to donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Ministry. Investment income and unrealized gains and losses from these funds can be either restricted or unrestricted.

Revenues are reported as increases in the unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Contributions received with donor-imposed restrictions are reported as increases to temporarily or permanently restricted net assets. Realized and unrealized gains and losses on investments are reported as increases or decreases in unrestricted net assets unless their use is restricted by donors. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications from temporarily restricted net assets to unrestricted net assets (note 12). Temporary restrictions on gifts to acquire long-lived assets are considered met in the period the assets are acquired or placed in service.

Notes to Combined Financial Statements

March 31, 2011 and 2010

(c) Cash and Cash Equivalents

The Ministry considers all highly liquid financial instruments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents that are utilized within a managed investment portfolio or are invested in foreign currency time deposits are accounted for as investments. Cash equivalents consisting of certificates of deposit and money market funds totaled \$17,513,732 and \$15,807,155 at March 31, 2011 and 2010, respectively. Included in cash and cash equivalents is \$5,240,951 and \$7,771,482 at March 31, 2011 and 2010, respectively, in proceeds from bank note borrowings to be used for capital purchases.

(d) Investments

Investments are stated at fair value based on quoted market prices. Realized gains and losses are derived using the specific-identification method and are included in investment gain, net in the accompanying combined statements of activities.

(e) Pledges and Contributions Receivable

Pledges receivable to the Ministry are recognized as revenues in the period the unconditional promise is made by the donor. Pledges to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved. Amortization of the discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the pledge. Conditional pledges to give are not recognized until the conditions on which they depend are substantially met. Contributions receivable from irrevocable trusts and estate interests are recorded at estimated fair value.

(f) Gifts-in-Kind

Gifts-in-kind primarily comprise medicines, school and medical supplies, dried and canned food, produce, clothing, and other relief products. Such items are generally distributed within several weeks after receipt. Gifts-in-kind are recorded at their estimated fair wholesale value when received. Gifts-in-kind revenue and expense are recognized in the year in which the product is distributed. Amounts at the end of the fiscal year that have not been distributed are included in gifts-in-kind inventories and deferred gifts-in-kind revenue. Substantially all gifts-in-kind inventories on hand at March 31, 2011 and 2010 were distributed shortly after the end of the fiscal year. Expenses associated with these items are predominantly included in Operation Blessing and humanitarian relief in the accompanying combined statements of activities.

(g) Property and Equipment

Property and equipment are stated at cost or at estimated fair value at date of gift if acquired by gift, less accumulated depreciation and amortization. Depreciation is computed utilizing the straight-line method over the estimated useful lives of the related assets. The estimated useful lives are: buildings and improvements, 40 years; production and transmission equipment, 6 years; information technology and other equipment, 6 years; and office furniture and fixtures, 10 years. The cost of property sold or retired is removed from the accounts and any gain or loss is reflected in the accompanying combined statements of activities.

Notes to Combined Financial Statements

March 31, 2011 and 2010

(h) Fiduciary Assets

CBN is the beneficiary of various revocable and irrevocable trusts. Assets in irrevocable trusts, which are controlled by CBN, are recorded as investments and recognized as contribution revenue at the present value of future distributions to the Ministry in the fiscal year the trust is established. The change in fair value of CBN's interest in irrevocable trusts is included in other gains and losses in the accompanying combined statements of activities. Trusts that are revocable in nature are not reflected in CBN's combined financial statements until the trust assets are received.

(i) Allocation of Expenses

The Ministry allocates its expenses on a functional basis among its various programs and supporting services. Expenses that can be identified with a specific program or supporting service are allocated directly. Other expenses that are common to several functions are allocated based on various statistical bases, such as content and purpose. Total joint costs and respective allocations are as follows for the years ended March 31:

	-	2011	2010
Evangelistic outreach – domestic	\$	62,388,157	66,600,165
Evangelistic outreach – international		1,843,747	1,066,400
Operation Blessing and humanitarian relief		394,591	422,128
Counseling and prayer		6,964,036	8,074,191
Worldwide distribution of religious materials		1,064,980	1,098,019
Education and training		895,608	1,142,758
Fundraising		25,845,436	28,053,457
General and administrative	_	6,516,448	6,701,957
Total joint costs	\$_	105,913,003	113,159,075

The types of activities for which joint costs have been incurred are program airtime, direct mail, utilities, maintenance, depreciation and amortization, development, and information technology.

(i) Bartered Airtime

The Ministry recognizes the estimated fair value of international airtime received in exchange for providing program content as ministry support and international evangelistic outreach. The amounts recognized in the accompanying combined statements of activities were approximately \$65,050,000 and \$54,370,000 for the years ended March 31, 2011 and 2010, respectively.

(k) Noncash Transactions

Gifts-in-kind inventories and deferred gifts-in-kind revenue totaled \$6,637,771 and \$8,353,798 at March 31, 2011 and 2010, respectively.

Notes to Combined Financial Statements

March 31, 2011 and 2010

(l) Income Taxes

CBN is classified as an exempt organization for federal income tax purposes under Section 501(c)(3) of the Internal Revenue Code. Contributions to CBN qualify for a charitable contribution deduction to the extent provided by the law. CBN is subject to taxes on its unrelated business income. Substantially all of the taxes on unrelated business income were offset by the utilization of net operating loss carryforwards. As of March 31, 2011, CBN has unused net operating loss carryforwards available to offset future tax liabilities. The carryforwards expire at various dates principally through 2030. Management has recorded a full valuation allowance of \$11,965,000 and \$11,748,000 as of March 31, 2011 and 2010, respectively, for the future tax benefit of the related deferred tax asset.

The Ministry recognizes or derecognizes its tax positions based on a "more likely than not" threshold. This applies to positions taken or expected to be taken in a tax return. The Ministry does not believe its combined financial statements include or reflect any uncertain tax positions.

(m) Impairment of Long-Lived Assets

Long-lived assets and certain identifiable intangible assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be presented separately in the combined statement of financial position and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated.

(n) Use of Estimates

The preparation of combined financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management of the Ministry to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosures of contingencies at the date of the combined financial statements and revenues and expenses recognized during the reporting period. Significant items subject to such estimates and judgments include: the valuation of pledges, contributions, and accounts receivable; future distributions from trusts: bartered airtime; gifts-in-kind contributions; the carrying amount of property and equipment; and the allocation of joint costs. Actual results could differ from those estimates.

(o) Subsequent Events

The preparation of combined financial statements in conformity with GAAP requires entities to evaluate events that occur after the balance sheet date but before financial statements are issued for potential recognition or disclosure. Entities are required to disclose the date through which subsequent events were evaluated, as well as the rationale for why that date was selected. In preparing these financial statements, the Ministry has evaluated events and transactions for potential

Notes to Combined Financial Statements

March 31, 2011 and 2010

recognition or disclosure through July 1, 2011, the date the combined financial statements were available to be issued, and determined that all items are appropriately disclosed.

(p) Financial Statement Reclassification

Certain amounts in the 2010 combined financial statements have been reclassified in order to conform to the 2011 presentation. The reclassifications had no effect on net assets, the increase in net assets, or cash flows as of and for the year ended March 31, 2010.

(6) Contribution Receivable from Charitable Trust

In 1990, CBN's Founder established an irrevocable charitable remainder trust with his personal assets for the future benefit of the Ministry. The assets of the trust are not controlled by CBN and will be distributed to the Ministry upon the later of the death of the Founder or his wife. Trust assets are invested in privately held ventures, oil, and gas rights and other investments. The estimated fair value of these assets as of March 31, 2011 and 2010 is \$18,345,000 and \$15,255,699, respectively. The \$3,089,301 and \$3,905,930 increase in estimated fair value for the years ended March 31, 2011 and 2010, respectively, has been recognized as temporarily restricted ministry support in the combined statements of activities.

(7) Fair Value Measurement of Assets and Liabilities

The carrying amount of cash and cash equivalents, accounts receivable, prepaid and other assets, accounts payable and accrued liabilities, and other current liabilities reported in the combined statements of financial position approximates fair value due to the short maturity of these instruments. The carrying value of pledges receivables and fiduciary liabilities approximates fair value, since the expected cash flows have been present valued. Also, the carrying value of long term debt approximates fair value due to the short duration of the notes.

Financial assets and liabilities measured at fair value on a recurring basis are classified and disclosed in one of the following three categories known as the "Fair Value Hierarchy":

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Ministry has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are primarily unobservable inputs for the asset or liability.

Notes to Combined Financial Statements

March 31, 2011 and 2010

The level in the fair value hierarchy within which a measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following tables present assets and liabilities that are measured at fair value on a recurring basis:
